

Table 1: Registered losses of inner rings in point-atom models. Form: CM, complex moment; E, eccentric; P, polar with an offset band. E^a: eccentric point plus a residual fitted on capacity (0.15 to 0.35 ϵ_i^2 ; LFP 0.25 $\epsilon_i^2 \pm 5 \times 10^{-4}$); E^b: eccentric point -5×10^{-4} to $+0.25 \epsilon_i^2 + 5 \times 10^{-4}$; E^c: also registered with a per-problem miss of $-2.0 \times 10^{-4} \pm 5 \times 10^{-5}$ (observed -1.95×10^{-4}). NPMLE: Gaussian source, $s = 2$. Observed values are zeros between computed points.

problem, region, r_p	ring, form	registered	observed	verdict
capacity, ellipse, 3.6	pair, CM	3.39615–3.39695	3.39656	PASS
capacity, ellipse, 3.6	quartet, CM	3.43054–3.43134	3.43094	PASS
capacity, ellipse, 4.15	pair, CM	3.31403–3.32113	3.31902	PASS
capacity, ellipse, 4.15	quartet, CM	3.50003–3.50386	3.50338	PASS
capacity, ellipse, 4.3	pair, E	3.29308–3.29428	3.29254	FAIL
capacity, ellipse, 4.3	quartet, E ^a	3.52424–3.52616	3.52568	PASS
capacity, mixed 0.2, 3.7	pair, E	3.38143–3.38243	3.381956	PASS
capacity, mixed 0.2, 3.7	quartet, E ^b	3.44158–3.44269	3.442136	PASS
LFP, ellipse, 2.6	pair, E	2.27253–2.27333	2.272753	PASS
LFP, ellipse, 2.6	quartet, E ^a	2.32039–2.32139	2.320752	PASS
LFP, mixed 0.1, 2.6	pair, E	2.27134–2.27234	2.271647	PASS
LFP, mixed 0.1, 2.6	quartet, E ^b	2.32083–2.32192	2.321326	PASS
LFP, ellipse, 2.8	pair, E	2.24645–2.24745	2.246310	FAIL
NPMLE, ellipse, 2.9	pair, E	2.53389–2.53489	2.534208	PASS
NPMLE, ellipse, 2.9	quartet, E ^b	2.60478–2.60621	2.605352	PASS
NPMLE, mixed 0.2, 2.9	pair, E	2.53134–2.53234	2.531636	PASS
NPMLE, mixed 0.2, 2.9	quartet, E ^b	2.60374–2.60517	2.604292	PASS
NPMLE, mixed 0.1, 2.9	pair, E ^c	2.53262–2.53362	2.532921	PASS
NPMLE, ellipse, 3.1	pair, E	2.49899–2.49999	2.498436	FAIL
capacity, ellipse, 3.7–4.0	6 events, P	offset bands	inside	PASS

Supplement to “How Many Atoms, and Where”: every registered loss of an inner ring

Table 1 lists every registered test of the inner rings of Section VI of the paper, with the form of each prediction, its band, the observed loss and the verdict.
